Objective

Aspiring Software Professional with a strong foundation in Data Analyst and Software Development. Skilled in Python, SQL, data analysis and visualization. Proficient in developing efficient, data-driven solutions with strong problem-solving and analytical skills.

Key Competencies

- **Technical Skills:** Python, SQL
 - **Framework:** Pandas, Pytest, Open CV, Media pipe, Flask
 - **Analytical Skills:** problem-solving, Critical thinking
 - **Soft Skills:** Communication, Teamwork, Leadership
 - **Tools:** Power Bi, Figma, MS Excel, PyCharm, GitHub
-

Experience& Internship

DataAnalytics Intern Gateway software solutions|May2025– June2025

- Developed skills in sales data visualization and reporting, enhancing the ability to interpret trends and patterns. Gained practical exposure to how data-driven insights influence real-world business decisions(sales analyst). **Tools:** Power Bi [\[LINK\]](#)

Python Development Intern Litz Tech |March 2024 – April 2024

- Built a Movie Ticket Reservation System Using Python and Tkinter for the user interface. PyMySQL to connect with MySQL for handling booking, seat availability, and payment records. implemented features such as seat allocation ,booking validation and database driven show management.
- **Tech Stack:** PyMySQL, MySQL [\[LINK\]](#)

Workshop Experiences

- Completed the 'Introduction to Software Development' course at **NIT**Trichy, acquiring a solid understanding Object-Oriented Programming (OOP) principle.
 - Participated in a UI/UX workshop at **KCT**, where I gained foundational knowledge in UI/UX design principles.
-

Education

- **B.E Computer Science and Engineering** SNS College Of Technology| 2022- 2026| **CGPA:** 7.93
 - **HSC** Fusco's Matric Hr Sec school | 2021-2022 | 82.3 %
 - **SSLC** Fusco's Matric Hr Sec school | 2019 – 2020 | 91.8 %
-

Certifications

- Python Programming | Oracle Cloud Certified AI Foundation Associate– 2025| SQL | Data Science Certification | Databricks Gen AI Fundamentals | [\[LINK\]](#)
-

Projects

Facial and Hand Gesture Using AI- Powered Attendance System [\[LINK\]](#)

Developed an AI-powered system for real-time face recognition and hand gesture detection. Implemented Thumbs Up, Thumbs Down, and Neutral gesture feedback within a 15-second capture window. Developed separate Staff and Student dashboards to monitor attendance and hand gesture feedback Enabled staff to mark attendance using face recognition and collect gesture-based feedback. Automatically stored user details and feedback in a CSV file.

Tech Stack: Pandas, Open CV, Media pipe, Flask, Face-Recognition.

Real-Time Attendance & Performance Tracking using Business Intelligence [\[LINK\]](#)

Designed and developed an interactive BI dashboard to track real-time attendance and performance across teams, managers, and job levels, enabling data-driven insights and improved decision-making.

Tools: Power Bi
